

## 2022 Conflict Prevention Priority Areas

The Vital Ground Foundation worked with more than 60 grizzly bear biologists and managers to complete an inventory and prioritization of conflict prevention needs within grizzly bear habitat in Idaho, Montana, Washington and Wyoming. Priority areas are updated annually. Partner grant applications that include projects designed to address the following conflict prevention needs will be prioritized for funding:

- **Increase in agency capacity**  
*Kootenai Valley, ID; Upper Clark Fork; Lander; Flathead Valley*
- **Securing of attractants**  
*Whitefish; Eureka; Blackfeet Reservation; Livingston; Gallatin Valley; Madison Valley; Missoula; Evaro/Rattlesnake; Seeley Lake; Ninemile; Ferndale/Swan Lake; Red Lodge; Madison Valley; Gravelly Range; Ruby Valley; Lower Clark Fork; Eureka; Bitterroot; Blackfoot Valley; Upper Clark Fork/Georgetown Lake; Lower Clark Fork (Sanders County); Kootenai Valley, ID; Priest Lake; Pack River; Cody; Dubois; Cody; Lander/Winds; Lower Pend Oreille, WA;*
- **Agriculture commodities/livestock security and carcass pickup program**  
*Rocky Mountain Front; Dubois; Blackfoot Valley' Deer Lodge/Upper Clark Fork; Kootenai Valley, ID*
- **Community outreach and education**  
*Rocky Mountain Front; Whitefish; Flathead Valley; Bigfork/Swan Lake; Gardiner; Big Sky; Madison Valley; Kootenai Valley, ID; Upper Clark Fork; Lower Clark Fork; Lander/Winds; Helena; Evaro/Rattlesnake*
